

## LOVE IS IN THE AIR

Honeymoon at Kurumba Maldives, booked through Kuoni, and you'll find heaven on earth

Most couples find it's love at first sight when they set foot in the Maldives, an Indian Ocean archipelago of 1192 low-lying coral islands, scattered like emeralds across miles of azure ocean. And what an ocean it is. Even if you are strictly non-scuba, snorkelling just off the white-sand beaches reveals coral reefs, butterfly fish, angel fish and much more. Its dive sites are world-renowned and it's not unusual to see sharks, stingrays, turtles and dolphins. Night fishing on board *dhonis* (traditional boats) and big game fishing are also spectacular.

The exclusive five-star island resort of Kurumba Maldives, one of 10 private-island resorts owned by Universal Resorts in the country, guarantees honeymoon bliss. A romantic *Robinson Crusoe* castaway atmosphere is combined with maximum pampering at Kurumba Maldives. Having recently undergone an £11million renovation, it is now a honeymoon haven with a choice of 180 rooms and suites.

Architects for the new Kurumba drew design inspiration from around the globe, with strong eastern influences. The lofty main reception lounge reflects the interior scheme of the rooms, with rattan and natural woods used alongside raw calico and batik to create a stylish yet welcoming atmosphere.

For maximum pampering after the stress of a wedding, the brand new spa has a luxurious range of Ayurvedic treatments, massage and aromatherapy. Other activities include two fresh-water swimming pools, table tennis and tennis. Snorkelling, diving, big game fishing and island excursions can all be arranged. There is a huge range of international cuisines to choose from, as well as plenty of traditional local fish, available at the island's seven restaurants.
